- **Introduction**

Himadri Speciality Chemical Limited ("Himadri") is committed to managing the end-of-life phase of its products in an environmentally responsible and sustainable manner. This Product End of Life Policy outlines our dedication to minimizing the environmental impact associated with the disposal of our products once they have reached the end of their useful life.

- **Definition of Product End of Life**

The product end of life refers to the stage in a product's lifecycle when it is no longer in use or has become obsolete and needs to be managed for disposal, recycling, or repurposing.

- **Commitment to Responsible Product End of Life Management**

Himadri recognizes the importance of managing product end of life in a way that minimizes environmental harm, maximizes resource recovery, and complies with all relevant regulations. We are committed to:

a. **Minimizing Waste:** We aim to minimize the volume of waste generated during the disposal of our products.

b. **Recycling and Repurposing:** Whenever feasible, we seek opportunities for recycling or repurposing components or materials from our products.

c. **Compliance:** We adhere to all applicable laws and regulations related to the disposal and management of end-of-life products.

- **Design for Sustainability**

Himadri incorporates principles of sustainability into the design and development of its products. This includes:

a. **Longevity:** Designing products with longer lifespans to reduce the frequency of replacements.

Himadri

b. Materials: Using materials that are recyclable or have minimal environmental impact.

c. Ease of Disassembly: Designing products that can be easily disassembled for recycling or component reuse.

- **Responsible Disposal**

Himadri ensures that products that have reached the end of their life are disposed of in an environmentally responsible manner. This may involve:

a. Recycling: Identifying components or materials that can be recycled and directing them to appropriate recycling facilities.

b. Safe Disposal: Ensuring that any hazardous components are disposed of safely and in compliance with regulations.

- **Collaboration**

We collaborate with relevant stakeholders, including recycling facilities and waste management partners, to optimize the end-of-life management of our products.

- **Customer Awareness**

We inform our customers about responsible disposal options for our products and encourage them to participate in recycling or proper disposal programs.

- **Reporting and Monitoring**

Himadri monitors and reports on its product end of life practices regularly. We assess our progress, identify areas for improvement, and set targets for minimizing environmental impact.

- **Compliance with Regulations**

We strictly adhere to all laws and regulations related to the disposal of end-of-life products, ensuring full compliance.

- **Continuous Improvement**

Our commitment to responsible product end of life management is an ongoing effort. We continually seek opportunities to improve our practices and reduce the environmental footprint associated with our products.

- **Communication**

Himadri communicates its efforts and achievements in responsible product end of life management to stakeholders through various channels, including sustainability reports and public disclosures.

- **Review and Updates**

This Product End of Life Policy will be periodically reviewed and updated to ensure its effectiveness and alignment with evolving sustainability standards and regulations. Any updates will be communicated to all relevant parties.

- **Conclusion**

Himadri is dedicated to managing the end-of-life phase of its products in a manner that reduces environmental impact, promotes resource recovery, and complies with all relevant regulations. Through responsible product end of life management, we contribute to a more sustainable and environmentally conscious future.
