- **Introduction**

Himadri Speciality Chemical Limited ("Himadri") is committed to promoting sustainable consumption as an integral part of our corporate responsibility. This policy outlines our dedication to encouraging sustainable consumption practices among our employees, customers, and partners.

- **Definition of Sustainable Consumption**

Sustainable consumption refers to the responsible use of resources and products to meet current needs while preserving resources for future generations. It involves reducing waste, conserving energy, and making environmentally conscious choices in everyday activities.

- **Commitment to Sustainable Consumption**

Himadri recognizes the importance of sustainable consumption in reducing environmental impact, conserving natural resources, and promoting a healthier planet. We are committed to fostering a culture of sustainable consumption within our organization and among our stakeholders.

- **Sustainable Product Development**

We strive to design, develop, and offer products and services that align with sustainable consumption principles. This includes creating products that are energy-efficient, environmentally friendly, and have a longer lifespan, thereby reducing the need for frequent replacements.

- **Education and Awareness**

We are dedicated to educating our employees, customers, and partners about the principles of sustainable consumption. This includes providing information on the environmental impacts of various products and services and encouraging responsible choices.

- **Resource Efficiency**

Himadri aims to optimize resource use across our operations. We promote practices that reduce waste generation, enhance energy efficiency, and minimize water consumption.

- **Waste Reduction**

We actively seek ways to reduce waste generation; promote recycling, and minimize the disposal of hazardous materials. Our waste management practices adhere to environmental regulations and industry best practices.

- **Collaboration and Partnerships**

We collaborate with like-minded organizations, industry associations, and government bodies to promote sustainable consumption initiatives. These partnerships allow us to share knowledge and resources to advance sustainable practices.

- **Sustainable Supply Chain**

Himadri encourages sustainability throughout our supply chain. We work with suppliers who share our commitment to sustainable consumption and consider environmental factors in their operations.

- **Reporting and Monitoring**

We regularly assess our progress in promoting sustainable consumption and report on our achievements and challenges transparently. This enables us to identify areas for improvement and set meaningful sustainability goals.

- **Compliance with Regulations**

Himadri complies with all applicable laws and regulations related to sustainable consumption, environmental protection, and resource conservation. We continually review our practices to ensure alignment with evolving regulatory requirements.

- **Employee Engagement**

We engage our employees in sustainability initiatives and encourage them to adopt sustainable consumption practices both at work and in their personal lives.

- **Continuous Improvement**

Our commitment to promoting sustainable consumption is an ongoing effort. We are dedicated to continuous improvement in our sustainable consumption practices and policies.

- **Communication**

Himadri communicates its sustainable consumption efforts and achievements to stakeholders through various channels, including annual sustainability reports and public disclosures.

- **Review and Updates**

This Promotion of Sustainable Consumption Policy will be periodically reviewed and updated to ensure its effectiveness and alignment with evolving sustainability standards and regulations. Any updates will be communicated to all relevant parties.

- **Conclusion**

Himadri is dedicated to promoting sustainable consumption as part of our broader sustainability agenda. By fostering a culture of responsible resource use and environmentally conscious choices, we contribute to a more sustainable and resilient future for our organization and society as a whole.
