

JETEX 145 Specialty Carbon Black

Product Description

JETEX 145 is a very clean general purpose pigment black that allows high loadings in polymer matrix. It offers excellent opacity in film applications that require low UV protection. Because of its large primary particle size, it is a relatively easy-to-disperse carbon black that enables a strong blue undertone. It also has excellent flow properties and renders easy processability.

Product Features

- High loadings in a masterbatch
- Faster processing rate
- Very blue undertone
- Excellent cleanliness

Applications

- General moulding
- General extruded films such as garbage bags, drainage pipes, and similar applications
- Inks & dispersions
